DIGI - CIVIS

The Erasmus+ Digi-Civis project is dedicated to **advancing digital citizenship and online safety in schools across Europe**. This initiative aims to equip educators with the necessary tools and knowledge to integrate EU Digital Citizenship competencies into their teaching practices.

Additionally, it seeks to **prepare schools to integrate citizenship skills into their curriculum**, including accessible and adapted learning methods. It also aims to activate, understand, promote, and defend EU and national citizenship values, as well as human rights in the online dimension.
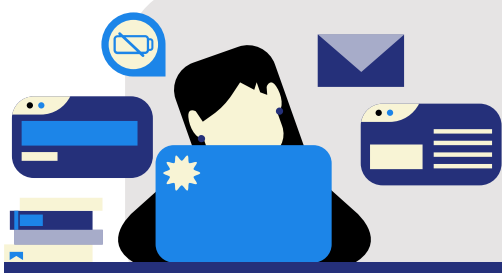

Results

Let's get to know the project results!

RESULT 1
Online training package on Digital EU Citizenship for teachers and educators

RESULT 2
Pedagogical sequences to apply digital citizenship aspects in daily teaching and working in schools
